Your ratings, every court, one place.

A PRIVATE PREVIEW FOR TRAVIS ERVICK · MOUNT VERNON RACQUETS CLUB

CrossCourt gives every racquet-sports player **one home for their ratings** — tennis, pickleball, padel and platform, singles and doubles — that travels with them to every club they join. On top of it sits a full **club-management suite** for directors: roster, fair event-building, seasons, tournaments, match tracking, and a live command center.

New from club-director feedback: single-elimination tournaments, real-rating displays (avg NTRP/DUPR), match formats, rating verification look-ups, and roster search/sort + contact fields.

WHAT YOU'RE LOOKING AT

This is a working demo, pre-loaded with your club — **Mount Vernon Racquets Club**: 50 members across all four sports, real match history, a live season, a completed **Club Championship** bracket, three built events, and open court sessions on your courts. Everything you tap is real and saved. Sign in below and poke around — nothing you do can break it.

WHY IT'S DIFFERENT

FOR YOUR MEMBERS

- **Every rating in one place**, across all four sports — it belongs to them, not the club.
- **Find a level-matched game** right at Mount Vernon.
- **Jump into open sessions** by court, time and level.

FOR YOU, THE DIRECTOR

- **A roster that maintains itself** — searchable, sortable, with ratings you can verify.
- **Events, seasons & tournaments** — one-tap balanced draws to single-elim brackets and a champion.
- **See who's improving** — match tracking, live standings, a drift radar.

WHAT I'D LOVE YOUR TAKE ON

- 1.** Does “players own their ratings, and they travel between clubs” fit how Mount Vernon runs?
- 2.** Would the roster → event → season flow actually save you time versus how you do it today?
- 3.** What's the one thing that would have to work before you'd use it for real?
- 4.** Anything confusing or missing in your first five minutes?
